

## **TANS Neurosurgical Research Coordination Panel (TNRCP)**

***“Innovate with purpose, lead with passion”***

The **TANS Neurosurgery Research Coordination Panel (TNRCP)**, officially established on **February 14, 2025**, is the first statewide collaborative effort in neurosurgical research, with the vision of pioneering neurosurgical research in Tamil Nadu. This initiative under the Tamil Nadu Association of Neurological Surgeons (TANS) aims to bridge the gap between clinical practice and research, fostering multi-institutional collaboration and developing evidence-based guidelines for neurosurgical advancements.

### **Founding Office-Bearers**

- Honorary Chairman: **Dr. Suresh Jayabalan**
- Honorary Secretary: **Dr. Selvamuthukumaran**
- Honorary Treasurer: **Prof. Magesh P.**
- Chairman: **Prof. Kodeeswaran M**
- Vice-Chairman: **Dr. Priyadharshan K.P.**
- Head of the Expert Neurosurgical Advisory Panel: **Prof. Raghavendran R.**

## **TNRCP guiding philosophy**

*“Alone ‘you’ are a case report. Together ‘we’ are the guideline!”*

Tamil Nadu holds a vast reservoir of neurosurgical data, rich enough to shape global guidelines. While numerous individual studies emerge from the region, their true potential lies in unification and standardization. By consolidating research efforts, standardizing methodologies, and fostering collaboration, we can move beyond scattered publications to create high-impact, globally relevant evidence and stand at the pinnacle of global neurosurgery. TNRCP is dedicated to transforming Tamil Nadu’s wealth of clinical insights into practical guidelines that can influence neurosurgical practice worldwide.

## **Our Mission**

- ◆ Driving large-scale neurosurgical research tailored to the needs of Tamil Nadu’s diverse population.
- ◆ Standardizing data collection protocols for high-impact research outcomes.
- ◆ Coordinating multi-center studies to ensure robust and reproducible findings.
- ◆ Streamlining inter-institutional communication to enhance research efficiency.
- ◆ Providing research mentorship and training to neurosurgeons, fostering academic and professional growth.
